SPRIAL WRAP SILO STORAGE UNITS

17-2

FEATURES:

- Blue Tempered Spring Steel (BTSS) Gravity Tracking.
- Part containment rails.
- Load elevated at top and gravity fed to exit at bottom.
- Custom designed to fit a wide range of part sizes and shapes.
- Utilized as a Storage Buffer Unit.
- Utilized as a Lowerator Unit to change the part elevation.

AVAILABLE OPTIONS:

- Constructed with either ride rail tracking or roller bearing bottom tracking.
- Custom construction to suit application.
- Drip pan bottom with drain.
- One to multiple lanes of part flow.

SYSTEM BENEFITS:

- Allows increased production capacity
- Controls part orientation.
- Cuts part production labor cost
- Economical automation
- Maintains part quality
- Reduces costly manual labor
- Reduced floor space requirements
- Storage provides continued through put operation
